## [ SPRING FEVER ]

Do it all: Hike, Bike, Run, Ski

**Sherwood Forest** (Syringa, as the locals call it): Sandpoint has an awesome loop trail system with up to nine miles of riding that has all the elements you would want in a perfect mountain bike trail. That's probably because it was recently built by the Pend Oreille Pedalers, a local group of bike enthusiasts who work tirelessly to maintain many of the Sandpoint region's trails. It is important to know that the Sherwood Forest trail system is located entirely on private land that is under a conservation easement with the Kaniksu Land Trust. The landowners are passionate about maintaining "non-motorized" trails and have worked closely with the local bike organizations to create it. For more information about the trail system, stop by Greasy Fingers Bikes and Repair at the corner of 3rd and Pine in Sandpoint and talk to the owner, Brian, who is also the president of the Pend Oreille Pedalers. Directions: The trailhead is located on the west side of Sandpoint at the end of Pine Street.
